- IPM AQUATOP
- IPM QUARTZ COLOR
- IPM GFN
- IPM LEVELLING
- IPM COATING ANTISTATICO
- IPM CONDUTTIVO

IPM Italia & MICROBAN®

PARTNERSHIP e MARKETING

IPM Italia, which has been the leader in the sector of industrial concrete floorings and resinous coatings since 1981, has established a partnership with MICROBAN, worldwide leader in the sector of additives for antibacterial protection. After promoting innovative solutions for different types of product sectors and, within them, for different places, IPM Italia has decided to embrace the MICROBAN technology in order to meet the most strict requirements as regards hygiene and cleaning in the FOOD sector, pharmaceutical/medical sector and within the Community world..

WHAT IS PROTECTION

The MICROBAN technology, which is incorporated into compounds during the production process, prevents mould and bacteria from developing and keeps its antibacterial power during time.

PROPERTIES

IPM Italia resinous coating systems, conceived with IPM compounds added with MICROBAN, are characterized by an elevated antibacterial power which remains unaltered even after continuous washing and wearing.

PLEASE REQUIRE SPECIFICATIONS TO OUR TECHNICAL OFFICE:
